Mr. Steven H. Gunderson
Rocky Flats Cleanup Agreement Project Coordinator
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South
Denver, Colorado 80222-1530

Dear Mr. Gunderson:

The purpose of this letter is to invoke the "Rocky Flats Cleanup Agreement Standard Operating Protocol for Recycling Concrete" (RSOP) for the Building 371 North Side project. This notification is submitted in accordance with Section 9 of the RSOP, and no response is required. However, if you need additional information or have any questions regarding this notification, please call Fred Gerdeman at (303) 966-6203.

The scope of this activity is the same as that described in the "Reconnaissance Level Characterization/Pre-Demolition Survey Report - 371 North Side Demolition Project" which was submitted to you by letter 01-DOE-01780, dated October 3, 2001. Footings, foundations, cooling tower basin walls, and product water tank containment walls are within the scope of this notification.

This activity is a part of the larger Building 371/374 project. The activity is being expedited, an Kaiser-Hill, L.L.C. is planning to complete it about two years ahead of the baseline schedule. Stockpiling the concrete is currently expected to be completed in November. An estimated 100 cubic yards of concrete rubble will be stockpiled in the 779 stockpile. The recycled concrete will meet the unrestricted release criteria as specified in the RSOP.

Sincerely,

for J.A. Legate
Joseph A. Legate
Assistant Manager
for Environment and Stewardship

Concrete to be recycled on the North Side Demolition project will be from the following structures:

B373, Cooling tower basin

B377, Air compressor building

B378, Product water pump house

D808, A&B Product water tanks containment and foundations

SL-8, Cement silo foundation

D225, Potassium hydroxide tank and pump foundations

D842, Potassium hydroxide tank and pump foundations

D222, Nitric acid tank and pump foundations

Containment berms from potassium hydroxide and nitric acid tanks and unloading stations

Pipe bridge footings

Miscellaneous concrete from manhole and catch basin modification and safety shower/eye wash station
